

Charges Palmer Campaign In Pennsylvania Ghastly And Debasing Law Degradation

Appeal Made To Wets By Palmer Forces

WASHINGTON, D. C., June 2.—Charges that the campaign for the nomination of Attorney General Palmer as Democratic candidate for the presidency had been conducted in Pennsylvania with an open appeal to the disloyal and lawless elements in the state were made today before the senate investigating committee by Eugene Henkel, of Philadelphia.

Mr. Henkel, who distributed stickers during the primary campaign setting the nomination of W. G. McAdoo, said that saloons and bonded warehouses in some parts of the state were now running "wide open," and that this was proceeding under the eyes of the department of justice and prohibition enforcement officials of the federal government appointed "with Mr. Palmer's rise."

The witness charged that the Palmer campaign in Pennsylvania had been a "ghastly and debasing degradation" of law. He added that the campaign was conducted for Mr. McAdoo had been entirely the work of himself and his colleagues and against the specific personal refusal of Mr. McAdoo to allow his name to be used.

JOHNSON FORCES WIN THEIR FIRST VICTORY

CHICAGO, June 2.—In its first decision affecting Johnson forces in the Republican convention, the national committee, by 36 to 12, voted to seat delegates from the tenth Minnesota district who are counted as favorable to the candidacy of the California senator.

The Wood delegates were denied seats on the first roll call of the committee has taken since it began deciding contests. The action followed a spirited discussion which brought out the charge, which the committee accepted, that the Wood delegates had been chosen by a rump convention.

The attorneys for the Wood delegates told the committee they had left the convention because they were denied police protection. The attorneys for the Johnson delegates characterized that statement as "laughable and a falsehood."

CHICAGO, June 2.—Resuming work on convention contests, the Republican national committee today seated the 12 unaffiliated delegates from Louisiana headed by Emil Kuntz, of New Orleans, national committeeman and dismissed the contest of the "Lily White" group led by C. S. Herbert and Victor Lohel, of New Orleans.

Herbert, who figured in the committee's decision yesterday, denying a rehearing in the challenge of Mr. Kuntz's seat, appeared for the contestants. He was confronted with a signed agreement made in 1918, in which he and his assistants agreed not to file a contest.

Committee members said the case had been investigated thoroughly last year and declared the new contest violated the 1918 agreement.

Further time to check evidence in the Herbert case was given to the subcommittee.

In taking up the tenth Minnesota district contest, between two Wood and two unaffiliated delegates, Secretary Miller announced that both claimed to be the regular delegates. Representative Schall, the third congressman was one of the unaffiliated delegates.

CHICAGO, June 2.—Claims of contesting delegates from Florida and Georgia continued today to occupy the attention of the Republican national committee.

Every effort was being made to speed up consideration of the cases so the committee might pass on to the claims from 10 other states, which have not yet been heard. The prospect of night sessions to clean up the state before the convention meets next Tuesday seems to be growing.

The first order of business today was a supplemental hearing for the regularly reported delegation from Florida, headed by National Committeeman Dean and the contesting delegation headed by H. L. Anderson, of Jacksonville.

With that disposed of, the committee planned to pass on to the Georgia case involving the seating of delegates pledged to Major General Wood or counted in support of Governor Lowden. The claim of the latter delegation, headed by Henry Lincoln Johnson, an Atlanta aviator, that it is the regularly reported delegation, is disputed by the former delegation, known as the Pickett faction, which contends that it should be considered the regularly reported delegation as Roosevelt Pickett is the accredited state chairman. Nevertheless, the official committee list places the Johnson delegation as the regularly reported one and the Pickett delegation was heard as the contestants. The fight brought before the committee the first clear cut case in which a gain of delegates for the Wood or Lowden forces was involved and it took first place in the interest of the pre-convention period.

Political forces are gathering slowly here and while the pre-convention circle has its usual line of gossip and prediction, no political leader of recognized importance has up to this time been willing to attach his name to a definite prediction of whom the convention will name as its candidate or when it is likely to do it. The end of the week with the probable adjournment of congress, however, will bring all the national leaders to Chicago, and by Saturday or Sunday convention plans are expected to begin taking definite form.

Representatives of the militant branch of the woman suffragists are on the ground preparing to picket the convention hall to enforce their demand for a platform declaration calling on the states which have not ratified the woman suffrage amendment to do so at once. The national committee by unanimous vote, called upon all Republican states to act promptly on the ratification.

The national committee are confident Wilson, which was passed yesterday by a vote of 72 to 23, was sent to the house. The foreign affairs committee to which the resolution was referred was expected to recommend it and all but 12 Democratic senators were expected to support it. The resolution was expected to be adopted without change and supporters voted against an amendment which would have given the resolution a two-thirds vote for ratification. Leaders predicted it would carry.

PERMANENT SHIPPING BOARD IS PROVIDED

WASHINGTON, D. C., June 2.—A complete agreement on the house merchant marine bill was reached by the house and senate conferees today after virtually an all night session.

Under the agreement senate provisions providing for a permanent shipping board of seven members were retained, but the senate amendment authorizing the board to set aside annually for the next five years \$50,000,000 from proceeds of charters and sales for construction of new ships, was modified so as to provide for a reserve fund of only \$25,000,000 annually.

Sale of American ships to foreign interests if after diligent effort the shipping board has been unable to dispose of them to Americans, is also provided for in the bill.

The bill also would require that 75 percent of the stock of companies engaged in coastwise trade be American owned as well as the majority interest in organizations engaged in foreign trade.

The senate bill would have required coastwise ships to be 100 percent American owned and stock in shipping companies engaged in foreign trade to be 75 percent American owned.

The bill provides no time limit in which the board would be compelled to dispose of the government owned merchant ships. It provides however, that the board is authorized and directed to sell, as soon as practicable consistent with good business methods and the objects and purposes to be attained by this bill.

Americans would be given 15 years in which to pay for ships, but foreigners would be allowed only 10 years and they would be required to pay not less than five percent interest.

SUFFS HAVE LITTLE HOPE OF VICTORY IN DELAWARE

DOVER, DEL., June 2.—The special session of the Delaware legislature met for its final session today with the resolution to ratify the woman's suffrage federal amendment still in the house committee of the state, where its opponents predict it will be allowed to die. Both houses passed a concurrent resolution last Friday to adjourn sine die today, and as a two-thirds vote is necessary to bring the suffrage measure from committee, it was generally agreed that unless the anti-suffrage members are willing, it will not come before the house again.

After being defeated by the lower house, the resolution was passed by the senate on May 5, but failing a second defeat, suffrage advocates succeeded in preventing it being messaged to the house until last Friday. Meanwhile every effort was made to bring about a change of sentiment in the lower house. Anti-suffragists declare, however, that instead of increasing their strength, the suffragists have lost one or two votes since the resolution was defeated by the house early in the session.

WASHINGTON, D. C., June 2.—President Wilson has telegraphed three members of the Delaware legislature urging that every Democrat in the legislature vote for the suffrage amendment.

"May I not as a Democrat," the president said, "express my deep interest in the suffrage amendment and my judgment that it would be of the greatest service to the party if every Democrat in the Delaware legislature voted for it?"

The message went to Assemblyman J. J. Mulvaney, J. A. Mulvaney and J. E. Mulvaney, Democrats, who are said here to have opposed ratification of the amendment.

WASHINGTON, D. C., June 2.—Census results announced today are: Worcester, Mass., 179,712, increase of 23,555 or 13.1 percent. Pawtucket, R. I., 64,218, increase of 12,626, or 24.5 percent. Would Repeal War-Time Legislation

WASHINGTON, D. C., June 2.—By unanimous vote, the house judiciary committee today ordered out a resolution repealing all war time emergency legislation excepting the Lever food control act, the trading with the enemy act and the District of Columbia rent profiteering measure.

Chairman Vreeland told the committee that he would attempt to have the house adopt the resolution before adjournment Saturday. House action, he said, would be attempted under suspension of the rules, which would permit only 10 minutes of debate.

WASHINGTON, D. C., June 2.—The question of adjournment of congress next Saturday, was put up to the senate today when the house resolution adopted yesterday was received. Under this measure congress would adjourn sine die next Saturday afternoon at 4 o'clock. In the meantime both the senate and house began clearing up a mass of routine legislation that remains to be disposed of before adjournment. In the house consideration of the third deficiency appropriation bill the last of the supply bills began yesterday's session being devoted exclusively to speech making.

Leaders were speculating on the probable attitude of President Wilson towards adjournment. Some suggested that he probably might call a special session about July 10, should adjournment resolution be adopted by the senate.

WASHINGTON, D. C., June 2.—Continuation of present federal wheat standards was decided upon today by Secretary Meredith in an opinion regarding hearings held to inquire into dissatisfaction in the central northwest with existing grades for hard red spring and durum wheats. Requests for lowering the present standards, the secretary announced would tend to decrease the return to farmers, while advocates of the change argued that the producer would receive more money for his wheat.

WASHINGTON, D. Cotton Crop Condition Worst Known

WASHINGTON, D. C., June 2.—Reporting the condition of the cotton crop on May 25 at 62.4 percent of normal, the department of agriculture announced that this was the lowest mark in its record of fifty years and that the recurring statement "worst ever known" was confirmed.

The lowest previous condition report on May 25 was 69.5 percent in 1917. Last year's figure on this date was 75.5 percent.

"Cotton is reported as poor to bad in all cotton states, and in almost every county in the cotton belt," the announcement said. "The season throughout the belt is from four to six weeks late."

Leaders were speculating on the probable attitude of President Wilson towards adjournment. Some suggested that he probably might call a special session about July 10, should adjournment resolution be adopted by the senate.

WASHINGTON, D. C., June 2.—Continuation of present federal wheat standards was decided upon today by Secretary Meredith in an opinion regarding hearings held to inquire into dissatisfaction in the central northwest with existing grades for hard red spring and durum wheats. Requests for lowering the present standards, the secretary announced would tend to decrease the return to farmers, while advocates of the change argued that the producer would receive more money for his wheat.

MATEWAN CHIEF OF POLICE AND WIDOW OF SLAIN MAYOR ARRESTED AT HUNTINGTON HOTEL

HUNTINGTON, June 2.—H. Hatfield, 27, chief of police of Matewan, under bond of \$5,000 for the alleged murder of Albert Felts in connection with the battle between miners and Baldwin-Felts detectives at Matewan, May 19, in which ten men were killed, and Mrs. Jessie Testerman, 23, widow of Mayor Cabell Testerman, killed in that battle, were taken into custody at the Huntington hotel by Police Lieutenant Joe Messenger and Detective Verne, at 10:30 o'clock last night. They were charged with improper relations. Hatfield was charged with violation of the Johnson pistol law.

Thomas L. Felts, head of the detective agency, who lost two brothers in the fighting and who was in Huntington last night, gave police information which led to the arrest of Mrs. Testerman and Hatfield, police said.

According to the police Hatfield had a license to marry Mrs. Testerman at the time of his arrest. The license was taken out late yesterday. It is said and possession of the license indicated that the marriage license had not been performed, police indicated.

Hatfield declared that he always had married Mrs. Testerman, while she created the question, police declared.

When charged with violation of the Johnson pistol law, Hatfield declared that as a police officer he could carry a pistol. Police declared that he cannot carry a pistol outside of Mingo county.

The case of Mrs. Testerman and Hatfield will be called in police court this morning and later in the day in magistrate's court, the case on the Johnson pistol charge will be called.

Slain Matewan Mayor
Tom L. Felts, head of the Baldwin-Felts Detective Agency, at the Free-Press yesterday said that he had a warrant charging Hatfield with the robbery of the dead bodies of Albert Felts and other detectives killed in

the battle at Matewan, and that he was collecting evidence which, he said, indicated that Hatfield had killed Mayor Testerman to get him out of the way.

"I have information," Mr. Felts said, "furnished by citizens of Matewan, that Hatfield had improper relations with Mrs. Testerman and that during the massacre Hatfield shot Testerman to get him out of the way."

The charge that Albert Felts killed Mayor Testerman is a dirty, vicious lie. The further charge that he had shot through his pocket is disproved by the fact that there were no holes through Albert Felts' coat pockets.

They killed my brother, robbed his body, but forgot to take his vest. I say that my brother was murdered by Hatfield and a man named Hoover, while he was reading a warrant to Mayor Testerman. They shot him in the back.

"Several reputable citizens of Mingo county say that Hatfield associated with Mrs. Testerman. That and the arrest of the two here tonight I regard as a basis that the real murderer of Mayor Testerman was Sid Hatfield."

"The evidence I am collecting will be presented to the grand jury of Mingo county when the other murder with which he is charged is brought

up.

Felts characterized the statement issued by Sheriff Blankenship, following the Matewan battle as false and said that action would be taken.

Hatfield Denies
Defective Charges
At police headquarters last night Hatfield denied the charges placed against him. He said that there had been nothing improper in his relations with Mrs. Testerman and denied that he had gotten the marriage license because he had learned that the police had located him. He told Police Lieutenant Messenger that he had married Mrs. Testerman, police said.

Hatfield also declared that he had a license to carry a pistol in West Virginia and that he still was chief of police of Matewan, despite the charges against him.

At police headquarters last night Hatfield made a blanket denial of all the charges placed against him. He characterized Tom Felts' charges that he had robbed the bodies of the detectives and that he had improper relations with Mrs. Testerman as ridiculous. "I have known Mrs. Testerman as long as I have been chief of police of Matewan. There has never been anything improper in our relations," he said.

"As for the charge that I robbed the body of Albert Felts, it is ridiculous."

"When Albert Felts was killed I searched his body and took from him two guns and \$21 in money. That was my duty as chief of police of Matewan. The money and the guns are in the property rooms of the police headquarters in Mingo county now. A diamond stick pin, which he had on his cravat, I removed and gave to Mrs. Blankenship in the way for safekeeping. Had I not done that the stick would have been stolen."

"As for the murder of the mayor, I was killed by Albert Felts. Felts

shot from the hip. He carried two guns. Any other statement is foolish."

Hatfield said that he had gotten the license "some time" yesterday in Calwell county. He also said that he was married but that he could not remember the minister who married them.

Mayor's Widow
Tells Her Story
In the woman's recollection of the city jail, Mrs. Testerman, modestly dressed in a blue suit and reading a magazine, she is petite, pretty and has dark brown hair. She spoke softly as she answered questions.

"No, we were not married," Mrs. Testerman replied simply. "It was late yesterday when we got the marriage license and we had some little difficulty in locating a minister. Finally, I

had located one, and returned to the hotel where Mr. Hatfield was. We were arrested before the marriage ceremony could be performed."

"There never has been anything improper in our relations. I have known Mr. Hatfield for several years and he always has been a perfect gentleman."

Mrs. Testerman said that she was to marry Hatfield because he was a good friend of her husband, and that Mayor Testerman had expressed the wish that should anything happen she should marry Hatfield. "So," she concluded, "it not only is my own personal regard for Mr. Hatfield, but the wishes of my dead husband. We shall be married as soon as this trouble is over."

SALVATION ARMY DRIVE RESUMED

The committees soliciting for the Salvation Army drive are still out endeavoring to raise the \$20,000 home building fund with which it is hoped to erect for the local post of the Salvation Army a new home, where they can "carry on" the work of helping the man who is down.

Chairman Henry Winter, of the general committee of the Chamber of Commerce in charge of the drive, Wednesday renewed his plea for the citizens of Portsmouth to donate to this fund.

One of the reasons for the apparent slowness of the drive is the lack of solicitors. It has been difficult to find men to go out and do the work.

"Remember, when the solicitors get to you," Mr. Winter said, "that the Salvation Army says 'A man may be down, but he's never out,' and dig down in your pocket and give liberally to the support of the organization which works on such a noble theory."

Is Backache Slowing You Up?

Are you dragging along week after week with a dull, throbbing backache? Do you feel lame in the morning, tired all day, suffer sharp torturing twinges at every sudden move? Then there's something wrong! So why not find out what it is and try to correct it? You may never have suspected your kidneys, yet often it's the kidneys that are at fault. A cold, a strain, or overwork congests the kidneys and slows them up; poisons accumulate in the system and many mysterious aches and pains result. You may have headaches and dizzy spells, too, with perhaps some annoying bladder irregularity. Don't wait for more serious trouble. You owe it to yourself to get well and stay well. Use Doan's Kidney Pills. They have helped many Portsmouth folks. They should help you. Ask your neighbor!

These Are Portsmouth Cases:

<p>Jefferson Street</p> <p>Mrs. F. N. Patterson, 205 Jefferson St., says: "I caught a bad cold and it settled on my kidneys. Some time ago I was in pretty bad shape from kidney ailments. When I sloped over to pick up a timber, a sharp pain shot up from the small of my back and at times I could hardly straighten. The kidney secretions were scanty and too frequent in passage. I had dizzy spells so bad I would swoon around. Finally a friend recommended Doan's Kidney Pills and I got a box at Flood's Drug Store and began using them. I felt relief from the start and two boxes fixed me up in fine shape."</p>	<p>Eighteenth Street</p> <p>Lewis Fenner, carpenter, 1219 Eighteenth St., says: "A cold generally brings on my kidney trouble. Some time ago I was in pretty bad shape from kidney ailments. When I sloped over to pick up a timber, a sharp pain shot up from the small of my back and at times I could hardly straighten. The kidney secretions were scanty and too frequent in passage. I had dizzy spells so bad I would swoon around. Finally a friend recommended Doan's Kidney Pills and I got a box at Flood's Drug Store and began using them. I felt relief from the start and two boxes fixed me up in fine shape."</p>	<p>West Second Street</p> <p>Mrs. D. Hoobing, 210 W. Second St., says: "The trouble I had with my kidneys began with a throbbing ache in the small of my back and after a day's work my back was tired and pained terribly. Sometimes when I bent over it was awfully hard to straighten up again and I was frequently dizzy. I had headache, too, and felt all out of sorts. My kidneys showed they were the cause of the trouble by the way they acted, so I got Doan's Kidney Pills and began using them. I was soon relieved of the pain in my back and before long, was completely cured. My kidneys have been in their fine shape since."</p>
<p>Gallia Street</p> <p>James H. Hughes, prop. bicycle shop, 2123 Gallia St., says: "My back was so lame, I could hardly bend over at work, because when I did such sharp pains would catch me in my back that I would have to sit still for several minutes. My kidneys acted too often, and the secretions were scanty and of a reddish color. I got Doan's Kidney Pills at Flood & Lake's Drug Store and they gave me fine relief."</p>	<p>West Eighth Street</p> <p>Mrs. Geo. Elberfeld, 820 W. Eighth St., says: "My kidneys first troubled me about five years ago. Sometimes when I bent over I would have sharp piercing pains through my back that felt like knife-stabs and would almost take my breath away for a minute. For a week I was in misery all the time and it was all I could do to keep up at my work. Every morning I got up feeling tired and lame and my back hurt me so I couldn't bend over. Doan's Kidney Pills had been used by others in my family so I got some at the Red Cross Pharmacy. When I had taken three boxes my kidneys were in good shape and my back felt as good as ever. I haven't been troubled since then and I surely think Doan's are fine."</p>

Dear Miss Wise—When it is 12 o'clock noon here what time is it in Paris, France. SCHOOL KID. 5 o'clock P. M.

Dear Dolly—My hair is getting in the habit of falling out and I would like to know what will make it stay in. BLONDY.

"That's an awful" had habit for your hair to get into. Prude petroleum is often used to prevent falling hair. It does not leave the hair too greasy, but helps the scalp. Use as little as possible at each application, rubbing into the scalp with gentle massage every night.

Dear Dolly—I've been going with a fellow about seven months. I am 15 years of age. Dolly I love him dearly and would go through fire for him. He says he loves me and asked me to marry him but I think I am too young to think of such a thing. But all of a sudden he quit me for some reason. Now Dolly I almost break my heart to think of him. Don't think that I could ever forget him, for if I walk with another fellow it doesn't seem like I am in my right place. Would you advise me to go back to him or let him go and try to forget as this world is too wide for one.

WORRIED LOVER. You are right about this world being too wide for one, and there are too many interesting men in it to burn your eyes chasing the one you lost. Let him go and get interested in some one else. Young girls cannot be made to believe that an early marriage is a dangerous thing and almost always leads to great unhappiness.

It seems strange that people who are careful in most respects, who are prompt to act when action is necessary, will year by year neglect their eyes. In thousands of cases when folks KNOW that their eyes need attention, they put it off from time to time, even for years. If these people knew the harm that such neglect does their eyes, surely they would not do it differently. A prompt and accurate optical service awaits you here.

Youth On Trial; Accused Of Murdering His Father

CHILLICOTHE, O., June 2.—The trial of Lorton Devault, 17, charged with the murder of his father, Noah Devault, near Adolphus, February 6, 1920, opened in common pleas court here Tuesday. Judge F. N. R. Redfern, E. R. Yable and Wayne Redfern represented the defense.

sent Devault, who entered the court room and took his seat among attorneys with an indifferent air. It was evident Tuesday that the defense would probably plead temporary insanity. Prosecutor John P. Phillips is conducting the case for the state.

Wesley Hall Mission News

Special efforts will be put forth by the Mission Workers during the next two weeks in getting the extension work before the citizens of Portsmouth. The Mission has purchased for building just back of the hall opening on Front, the same to be equipped

as a day nursery and woman's department. We have seen the need of such a place in Portsmouth. Women and girls, strangers in the city, without money or friends, come to us for help. We have no place for them. The only thing we can do is to pay their way at some boarding house. In this way we lose track of them and can not keep in touch with them. Very often you will find them on the streets and sometimes they are landed in the police station. Why? Because they did not have any one to take an interest in them. Many an innocent girl has been led astray for this reason. The police station is the only free boarding house in the city that I have heard about during my stay here. Suppose it was your sister or daughter, what would you do?

We will have a place for the homeless and friendless. If you will help us. The day nursery will be a God-send to many a poor widow, who must earn her own living, and has no one to care for the little ones. A good woman will have charge of the building, look after the children and try to take your place.

This work will be a credit to the City of Portsmouth. All other larger cities have such places, why should our city be behind in such good work. You can help in many ways. Buy 25 or 50 shares in the society at \$1.00 per share. Buy number you can take will be that much toward getting the work started.

I can not see you all. So, why not save your time and mine by calling me at the mission, 409 R. I will be in the office what time I am not trying to find you. All calls will be answered.

This would be a good work for clubs, S. S. classes, lodges as a group to take several shares. Several churches have done this. Let me hear from you. 409 R.

Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3-, 30x3½, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure
Fabric, All-Weather Tread..... \$23.50

30x3½ Goodyear Single-Cure
Fabric, Anti-Skid Tread..... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-tight proof bag..... \$4.50

Your Hard Working Heart

By Lee H. Smith, M. D.

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body, at the rate of seven miles an hour.

A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. No one suffers from colds or catarrh who has plenty of red blood corpuscles and a good digestion. Catarrh in all its forms is a stagnation of the blood. Introduce pure

red blood into the system, and health is assured. Dr. Pierce, over fifty years ago, gave to the public an alternative and blood tonic which he named his "Golden Medical Discovery." It is sold by all druggists the world over in tablets or liquid, and is just the thing to put the body in the best of condition. It is a tonic, alternative and nerve, which contains no alcohol, and has the ingredients printed on the label. "Golden Medical Discovery" assists the digestive functions, assimilating the food and taking from it what is necessary for feeding the blood. Thus the blood takes on a new vigor and vitality. This corrective remedy nature put in the forest for keeping us healthy. One feels strong, vigorous and full of "pep," instead of weak, nervous and "played out." Send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or, send for a free medical booklet on any disease or free medical advice.

could the college have done it. Never before has the training and development of the latest genius of the student body been brought to the pin-point where such a production could have been possible. Never before has the infinite diversity that spells success been thought, worth while. But it is worth while, and intensely worth while, and the rendition of "The Mikado" last evening at the Murphy Theatre showed the worth whiteness of everything that goes to make up the student's training, with especial emphasis laid upon the more intangible phases of modern education.

Learning to do by doing is all that counts, perhaps, in education, and the tedious hours of practice and rehearsal that made possible the production of a rapidly moving opera, for a period of two hours and a half, are by no means misapplied, by no means wasted. "By far the most pretentious thing the college ever attempted, proved by far the most successful," we believe, and there is no way of overdoing the thing when it comes to proffering thanks and congratulations upon Miss Jones and Miss Lindemeyer, and all who helped them with the students in the very, very successful presentation of "The Mikado."

Jennie and Nellie Crane, daughters of Mrs. Newton Crane of Carey's Run, suffered serious injuries and Mrs. Crane and another daughter, Mrs. Emma Kuhlman of Columbus, suffered bruises Wednesday morning about 10 o'clock when the buggy in which they were riding upset on the "Y" road leading to the West Side. The horse, Mrs. Crane was driving frightened at an auto truck loaded with hay and backed the buggy into a ditch at the side of the road causing it to turn over. Jennie Crane 10 years old suffered a broken shoulder and had her scapula torn loose while Nellie Crane 6 years old, suffered a broken rib and a broken collar bone.

Mrs. Crane and Mrs. Kuhlman were badly bruised. The injured were brought to Dr. J. D. Hendrickson's office where Dr. Hendrickson and Dr. J. W. Fitch attended them. They were taken to the home of Mrs. James Lockwood, a relative at New Boston, Wednesday afternoon.

SOCIETY

The following from the News-Journal of Wilmington is of interest locally, since it gives an account of an entertainment given by one of Portsmouth's successful musical instructors, Miss Emma Lindemeyer, at Wilmington College:

"The crowd of the pudding is in the eating, and the public could not demand a more thorough demonstration of the character of the work—and the success—of the departments of music and expression at the College. Only for a brief moment did Mrs. Lindemeyer and Miss Jones appear last night at the presentation, but fully 2000 students, of the college, heard 'The Mikado' and the public was just a bit disappointed at not having a fuller opportunity to express, at least by popular demonstration, its approval of their wonderful work. Never before has the college at Lockwood, a relative at New Boston, Wednesday afternoon."

Cars Go Through B. & O. Trestle

Three cars dropped through a trestle on the B. & O. one mile west of Gophers Station, Wednesday morning about 11 o'clock. They were part of an extra double header freight train running between this city and Chillicothe.

None of the crew was hurt. The wreck was probably caused by defective trucks on the cars. They jumped the track and broke the ties in the trestle. Traffic was tied up all day Wednesday, but officials hoped to have the track cleared by Wednesday night.

A wreck train from this city was dispatched to the scene of the wreck Wednesday morning, and remained on the job all day Wednesday. Conductor Stevenson, Engineers Brown and Porter and the entire crew were from Chillicothe.

The diagram shows two cross-sectional views of lenses. The top row shows two circular lenses side-by-side, labeled 'TORIC LENS' and 'FLAT LENS'. The bottom row shows the corresponding lens profiles. The 'TORIC LENS' profile is a simple arc. The 'FLAT LENS' profile is a more complex, multi-faceted shape with several flat segments and curved segments, representing a toric surface.

Note The Difference
Between the Flat and Toric Lens shown above.

The Toric Lens is "curved" and its edges converge faster in the line, the result is more freedom and greater comfort to the wearer.

Let me make your glasses "Toric".

CHARGING IT TO THE PAPERS

A POOR excuse is better than none and with that idea the campaign managers, who have been forced to reveal the enormous sums they have handled in the interest of their chiefs, are laying mighty stress on the expensiveness of publicity. Let us see as to that. The fund raised by the Wood people was almost twice as much as that raised for any other candidate. The witnesses prefer to deal in general terms, but analyzing the Wood figures, we find that in an aggregate of \$200,000, or one dollar out of every six went for newspaper advertising.

Where did the other five-sixths go? To such query the committee has not been able to get anything approaching a specific answer. It has rather indicated it means to go to the bottom and get all the details of expenditures. It is to be hoped it is earnest in its purpose and will be successful.

It ought to expose both who gave the money and who got it, that is, how it was specifically spent. Of course, the public will believe the individuals who contributed so lavishly did not do so out of a laudable motive, but the committee intimates it is going to be a most difficult matter to pass a law that will punish the givers and stop the raising of vast sums hereafter, so the only promising remedy is notoriety, the exorcism of the public and its reputation of the candidate that is sought to be perpetrated upon them by the power of money.

An incident of the investigation is the kick-back it had upon one H. Johnson. This candidate went up and down the land, running in a mighty voice against the use of money to deceive and delude the people by the use of hundreds of thousands of dollars and so far it appears his campaign fund was the third largest of all and ran on the far side of two hundred thousand dollars; this being only what his national organization has been proven to have handled so far, and not taking into account what may have been gathered in and put where it was hoped it would do most good by his state and local supporters. Johnson sought to get advantage of a noise, it, in all probability, never occurring to him that his enemies would take advantage of a condition he himself was creating to hit him one on the jaw. That's where he made a mistake, as anyone who talks too loud and long always does.

ODDS AGAINST ALL OF THEM

WALL street is playing it safe on all the presidential aspirants on both sides. In the betting against each one it lays odds.

As to probabilities Johnson ranks as favorite in the Republican convention and Edwards of the Democratic, the ruling figures on the fields being: Johnson 6 to 5, Wood 2 to 1, Lowden and Hughes 5 to 1, Hoover 6 to 1, Harding and Butler 20 to 1, Edwards 7 to 5, Cox 2 to 1, McAdoo 3 to 1, Clark 4 to 1.

The rather surprising thing about this is as a rule short odds, totally out of proportion with the chances. Take Johnson, for instance. The pool makes him favorite at 8 to 5, but there is not a chance of one in a hundred of him winning. It is even more glaring with Edwards at 7 to 5 favorite, and really overtopping them all in so far as the odds are concerned. He hasn't a chance. No other aspirant is actually as remote as he. He isn't a possibility, he is an impossibility. That isn't in any sense a reflection upon the man himself. Circumstances have forced him into a position that will run the cold chills down the back of the convention at the mere mention of his name. The Democratic party, just like the Republican, is going to keep away just as far as it can from tangling itself with the nomination of a candidate, who fate has become inextricably interwoven with that of the so-called liquor interests.

One single fact may determine a matter about which there is much discussion and contention. So Secretary Daniels disposes of all criticisms of the navy when he stresses the truth, that the main mission of the department was to get the soldiers over to France quickly and safely, and this it did. Nobody can deny that. No other such hereabout or successful feat was ever performed upon the seas. Talk and wrangle from now till doomsday, it stands out clear and incontrovertibly it was that feat which won the war. Nothing else is of consequence beside that.

They tell us the lot of a telephone girl is nerve racking, that is on the part of the girl, effect on patron discreetly omitted, but we note that Mrs. Elizabeth Andrews, England's oldest girl resigned at the age of eighty, because her eyesight had grown so bad. She saw "21 years" service on the switchboard.

Officially the war is still on, then why expect other than war prices?

Years and years ago we went out with a friend to a country rally to make a speech. After we had got through he took the stump and harangued the multitude. A woman in the audience, who didn't like our politics was heard to mumble: "Listen at him talk, will you? He hasn't got any sense, why he's a bigger fool than that other fellow." Shortly after that our paths diverged and the first we have heard of him since was through a calendar received this week, which shows that "bigger fool" is now judge on the Indiana court of appeals. Which just goes to show you never can tell.

The man who built the first celluloid collar is dead, but his work will live after him, regrettable to say.

In Mexico a cafeteria is a place where only coffee is sold. In New York it is a place where one thing that isn't coffee is sold under a hundred different names.

Things never co-ordinate square. Here just as we had by heroic effort raked and scraped together enough to buy a \$50 bond the price suddenly jumped up and again we are far away from adding another to a life's savings. But it is all right. It stopped a lot of loose talk about how something worse was coming.

All the same that name Huerta doesn't sound good to us coupled with the presidency of Mexico. The United States heretofore had some business with a fellow of the same name in the same place.

Herb Hoover says prices will come down, sooner or later. That may be called playing it safe.

The DIARY OF AN ENGAGED GIRL

LINDSEY'S COOKING EXPERIENCES ARE OVER

As I lay in bed dreaming, mother knocked on my door and reminded me that I had undertaken to get the family breakfast today, which I had. There was nothing to do but sing out in my gaudy tones, "Down in a minute, Muddy dear." I kept my word, too.

It will strike you as strange that after my fatal experience as a cook, yesterday, I should put my neck in the noose again of my own volition. But I shall continue to do so, until we secure the services of a new cook. I have not even let little Muddy do it yet, but even if the family does suffer at my misdeeds, thank goodness it is only the family that must eat a whole lot.

I managed to get up quite a fair breakfast, and without much crowding either, which is the acid test for me. The family enjoyed it and were loud in their praise of me, which helps much. I am fervently hoping, however, that mother gets a cook—quickly. I have other work to do, which needs all of my attention, and getting lunch and breakfast every day means postponing much, I can tell you.

One funny little French woman who applied was so over-dressed and so national-looking that she seemed to have stepped right from some cafe in the Rue de la Gaitie, Paris, and seemed in need of any sort of work in the world but cooking. However she explained that she was an artist out of luck, and that this position was to be but fleeting—so words to that effect. She had been a dancer in Paris, and had been tricked into coming to New York and was now penniless.

Of course mother and I sympathized with her and all that, but we did not dare trifle with our family to the extent of taking her into our kitchen and putting ourselves at the mercy of her temperamental whims which she had an overabundance of, nor her cooking. So Mlle. D'Arcy left us in a continual bluff.

And then they came, three Swiss, two French, two Scandinavians and a host of other foreign born. All had their peculiarities, and each one was peevish with a long list of questions that she fired at mother's defenses, head in a most annoying way. Occasionally I butted in and was invariably met with cool stares. One truly comical, after I had been torn from for a few seconds, and upon being informed by mother that I was the daughter of the house, she fairly flooded out of the room.

One by one they left, and I was beginning to feel blue at the thought of the inevitable week of cooking that stretched before me when the last applicant appeared, and she was so comical looking, so temperamental length, Jessie was from up state and so provincial. If you know what I mean, that my heart gave a double jump as I saw her full.

BILLY WILKER

On the long journey to Mr. Wilker's ranch Billy, Jr., grew tired. "How much further is it?" he asked finally. "I hate walking behind a wagon, taking all the dust from the horses' hoofs. And this dust seems to smart so when it gets in one's eyes!" "Yes, I know it does; that is because there is so much alkali in the ground about here. Don't you remember me telling you about Dead Lake and the bones of animals you would see thrashing on its margin had you tried to walk across the desert?"

Well, this is not a desert, but we have to pass a small lake of alkali water, and, small as it is you can see the bones of animals lying beside it. There is very little water out here, no large rivers, and only a few springs or little mountain streams.

"Quick! look off there toward the foothills; do you see that grey dog running with a long loping trot?" continued Star.

"Yes, what of it?" said Billy, Jr.

"The Reason. I asked him to come down and talk things over. You see, he is such a high-priced man."

"Then he won't come down."

"Sweet Symphany. Brown—You can say what you will of Brooks, but he is one of the most sympathetic fellows I know."

"Town—I guess that's right. He even feels sorry for the people to whom he owes money."

"Not to be Bitten. An Alabama dandy, who prided himself on being able to play any trick on the hands after he had heard it once, perched himself on the side of a hill one Sunday morning and began to pick the strings in a workmanlike manner."

"It chanced that the minister came along, taking up to Moore, he demanded, harshly, 'Moses, do you know the Ten Commandments?'"

"Moses scratched his chin for a moment, and then in an equally harsh voice, said:

"'Parson, you don't think you kin beat me, do you? Jest go' whilen the first three or four bars, and I'll have a try at it.'—Harper's Magazine."

"Light or Dark. Visitor—Is your husband a light sleeper?"

"Maudie—Yes, sure. But man kin sleep as easy in de daytime as in de night."

"A Stager. Two rich business men were chatting together when an elderly man passed by."

"That's Brown; he works for me," said one of the two.

"He's an honest-looking chap," remarked the other. "Has he any staying power?"

"He has that," replied the first. "He began at the bottom of the ladder in seventy-six, and he's stayed there ever since."—Boston Transcript.

New-York - Day - By - Day

BY O. O. MONTGOMERY

NEW YORK, June 2—

I never wore anything new.

In my young life.

That I did not.

Have a sudden appetite.

For a grape fruit.

And spoil everything.

And there seems to be.

No way in the world.

To keep a grape fruit.

From back-firing.

I was all dressed up.

The other morning.

And sailed forth.

Daily for breakfast.

And ordered grape fruit.

And when it came.

I asked the waiter.

If he had an umbrella.

Or a rubber overcoat.

But he had been out late.

The night before.

And was in no mood.

For my repast.

So I tackled it gently.

And was making headway.

When it let go both barrels.

And got me in the shirt front.

And I turned it around.

To tackle the other side.

The Reason Why

My sister, aged five, had come to the table with very dirty hands, and mother said to her: "Mabel, go and wash your hands immediately. Did you ever see me come to the table with hands like that?"

"No, mother, of course not," answered Mabel, "but I didn't know you when you were five years old."—Illustrated News.

Duties of the Queen Bee.

It may be interesting to some people to learn that all the work in a beehive is done by female bees.

The drones, or males, live on the labors of their more industrious female companions. Moreover, there is no such thing as a king bee. The ruler of the hive is the queen, but she is a ruler in name only, being guarded and protected by the bees simply because the colony would become extinct if she did not lay eggs at a prodigious rate.

It is not unusual for a queen to produce her own weight in eggs in a single day, and she keeps this up for weeks at a time.

Frightful Dream.

Titile Clinezer says the reason she is quitting her present boarding home is because she dreamed last night she was married to a cannibal, and when she awoke up a horrid little bug was eating on her.—Pulse News.

WASHINGTON, D. C., June 2.—The senate resolution declining to grant authority for an American mandate over Armenia, as requested by President Wilson which was passed yesterday by a vote of 52 to 23, was sent to the house. The foreign affairs committee to which the resolution was to be referred was expected to recommend its adoption without change and submit it to the house tomorrow for consideration. Leaders predicted it would be adopted as decisively in the house as in the senate.

Passage by the senate came after a day's debate during which the Democratic leaders suggested delay and endeavored to withhold decision until congress reconvenes. Practically no straight advocacy of the mandate was urged and all but 12 Democratic senators voted against an amendment which would have given the requested authority.

Adjournment Of Congress Up To Senate

WASHINGTON, D. C., June 2.—The question of adjournment of congress next Saturday, was put up to the senate today when the house resolution adopted yesterday was received. Under this measure congress would adjourn at 4 o'clock. In the meantime both the senate and house began cleaning up a mass of routine legislation that remains to be disposed of before adjournment. In the house consideration of the third deficiency appropriation bill, the last of the supply bills began yesterday's session being devoted exclusively to speech making.

Leaders were speculating on the probable attitude of President Wilson towards adjournment. Some suggested that he probably might call a special session about July 15, should adjournment resolution be adopted by the senate.

CLINCHES RATIFICATION OF SUFFRAGE AND DRY AMENDMENTS IN OHIO

CONTESTING DELEGATIONS OF STATES ARE HEARD

CHICAGO, June 2.—Claims of contesting delegations from Florida and Georgia continued today to occupy the attention of the Republican national committee.

Every effort was being made to speed up consideration of the cases so the committee might pass on to the claims from 10 other states, which have not yet even been heard. The prospect of night sessions to clean up the state before the convention meets next Tuesday seems to be growing.

The first order of business today was a supplemental hearing for the regularly reported delegation from Florida, headed by National Committeeman Reun and the contesting delegation headed by H. L. Anderson of Jacksonville.

With that disposed of, the committee planned to pass on to the Georgia case involving the seating of delegates pledged to Major General Wood or counted in support of Governor Lowden. The claim of the latter delegation, headed by Henry Lincoln Johnson, an Atlanta negro, that it is the regularly reported delegation, is disputed by the former delegation, known as the Pickett faction, which contends that it should be considered the regularly accredited delegation as Joseph Pickett is the accredited state chairman. Nevertheless, the official committee list gives the Johnson delegation as the regularly reported one and the Pickett delegation was heard as the contestants. The fight brought before the committee the first clear case in which a gain of delegates for the Wood or Lowden forces was involved and it took first place in the interest of the pre-convention period.

Political forces are gathering slowly here and while the pre-convention circle has its usual life of gossip and prediction, no political leader of recognized importance has up to this time been willing to attach his name to a definite prediction of whom the convention will name as its candidate or when it is likely to do it. The end of the week with the probable adjournment of congress, however, will bring all the national leaders to Chicago, and by Saturday or Sunday convention plans are expected to begin taking definite form.

Representatives of the militant branch of the woman suffragists are on the ground preparing to picket the convention hall to enforce their demand for a platform declaration calling on the states which have not ratified the woman suffrage amendment to do so at once. The national committee by unanimous vote, called upon all Republican states to act promptly on the ratification.

The national committee are enjoying a joke at the expense of General T. Coleman Du Pont of Delaware, who introduced the resolution. A general's motion called for prompt ratification of the 15th amendment which is the prohibition amendment. The

Want Sugar Held In Cuba

HAVANA, CUBA, June 1.—The Havana chamber of commerce today petitioned the Cuban government to take necessary steps to see that 100,000 sacks of sugar of the present crop be retained on the island and withheld from export. The chamber of commerce explained that unless this measure is taken the shortage of sugar in Cuba will be virtually acute.

COLUMBIA CONFERS DEGREES

NEW YORK, June 2.—Columbia University at its 1920th commencement exercises today conferred 2,629 degrees in course. Honorary degrees of doctor of laws were conferred upon Henry P. Davidson, Herbert C. Hoover, Bishop Charles H. Brent, Rear Admiral William S. Sims and General John J. Pershing.

but after the mistake was discovered it was corrected.

The Johnson forces are counting on a burst of speed with the arrival of Senator Johnson here tomorrow. A street parade and demonstration have been arranged. A large delegation of service men, who saw service with the American forces in Siberia, which the senator fought to have returned home, will be in the escort.

Senator Harding is coming also on Thursday. General Wood is here and at his headquarters at Fort Sheridan, and Governor Lowden, already in here. Thus after tomorrow, four of the presidential candidates will be on the ground conferring with their forces in person and a more definite line of pre-convention and a more definite line of pre-convention speculation, probably will be one of the first results.

COLEMBUS, O., June 2.—The action of the supreme court yesterday in holding that Federal constitutional amendments can not be submitted for ratification to a referendum vote in the United States having referendum provisions in their constitutions, has been the source of much comment here.

The action of the supreme court means that all state legislative ratifications of the prohibition and suffrage amendments to the Federal Constitution stand. It had been contended in Ohio and in other states, having referendum provisions in their constitutions, that the legislative ratification could be submitted to a vote of the people. The supreme court now holds that these referendum provisions can not be applied to amendments to the United States Constitution.

The general effect of the decision is to clinch state ratification of both amendments. In the case of the prohibition amendment this means that it has been finally ratified nationally. In the case of the suffrage amendment it means that if the necessary three-fourths of the states ratify it through their legislatures, it will be finally ratified. So far the suffrage amendment lacks the necessary three-fourths.

In the meantime, cases are still pending in the supreme court involving the constitutionality of the Federal prohibition amendment.

Cheaper Collars Promised

NEW YORK, June 2.—Cheaper collars were promised here today, when representatives of one of the largest collar manufacturing corporations of Troy, N. Y., announced that wholesale prices had been cut to enable retailers throughout the country to sell their product at 25 cents each. They now are retailing as high as 35 cents.

No reduction in wages or overhead charges, but simply cheaper cost of materials, have brought the lowered price, it was explained. The additional statement was made that this company was the first to advance wholesale collar prices when production costs began to rise and is the first to reduce them.

The breach in negotiations came about as a result of Japan's discovery of a plot to undermine General Sennoff, commander of the all Russian forces in Siberia and being the Baklanov region under the Bolsheviks, the cable stated.

Gasoline Probe Reveals No "Gas Trust"

WASHINGTON, D. C., June 2.—Recent advances in the price of gasoline and other petroleum products were ascribed "more to varying conditions of supply and demand in the light of emphasized and pessimistic statements as to the future supply than to a combination in restraint of trade" by the federal trade commission in a report to congress.

Strong demands for the primary cause of the higher prices, the commission said, adding that conditions in the oil trade now appear to be greatly improved with respect to production and imports.

The commission said it was unable to say whether the prices of the refined products were "disproportionate" to advances in crude oil prices and likewise impossible to report on the company's profits for the current year.

Ask For Food Relief

WASHINGTON, June 2.—Officers and employees of the Vienna Chamber of Commerce have appealed to the United States Chamber of Commerce for food relief, declaring they are starving. American business interests are raising a \$12,500,000 fund for the purchase of food drafts which will be sent through the American relief administration.

Conditions in Vienna are reported as desperate in the formation received by the United States chamber.

Says Only One Way to Enforce Prohibition

NEW YORK, June 2.—The 15th amendment can be enforced only through government purchase of every ounce of distilled liquor now in bond, in the opinion of James S. Steffen, supervising federal prohibition agent.

He said that "at least 200 dealers in this city" would promptly be arrested if the supreme court should decide the act unconstitutional. The arrests would be made, he said, on evidence already in possession of federal authorities and able "some of the biggest ones in the city are included in the number."

Taft's Daughter Will Marry Yale Professor

NEW HAVEN, CONN., June 2.—Mr. and Mrs. William Howard Taft announced the engagement of their daughter Helen to Frederick Johnson, a Yale professor.

Mr. Johnson is an instructor in history in Yale University. He was a member of the class of 1906 in Yale and was until September, 1919, a first lieutenant in the field artillery. The marriage will take place in Cambridge, Mass. June 1-2 Night 6-1 ads in July.

CALIFORNIA PRIMARY ON GRILL BEFORE COMMITTEE TODAY

WASHINGTON, June 2.—California's presidential primary and the expected results, made in it by supporters of its well-known candidates, were on the agenda of the Democratic side, neglected for clear track at today's session of the senate committee investigating the primary. The committee, headed by Senator Johnson, who headed the first finance committee organized in 1911, was asked to appear and Gregory of the House organization, tell what he knew of expenditures in the principal witnesses summoned in behalf of Mr. Palmer's candidacy.

ACCUSED OF DYNAMITING FISH IN SYMMES CREEK

BRONTON, June 2.—Deputy Game Warden E. D. Voorhees of Portsmouth and Game Warden J. M. Chaffin of this city yesterday arrested six well-known men from the upper end of the county on a charge of dynamiting fish in Symmes Creek near Mill on Decoration Day.

The accused men were Gilbert Whitely, Cashier in Huntington Bank, Lord Whitely, C. S. Feig, M. M. Miller, Lowmy Langdon and Tom Wilks all of near Braddock. They were arraigned before Judge Epp last night and gave \$200 bond each for their appearance for trial on June 19th. Mr. Voorhees and Mr. Chaffin go to Columbus today to confer with Chief Game Warden Baxter regarding the case.

SUFFS HAVE LITTLE HOPE OF VICTORY IN DELAWARE

DOVER, DEL., June 2.—The special session of the Delaware legislature met for its final session today with the resolution to ratify the women's suffrage federal amendment still in the hands of the committee of the whole, where its opponents predict it will be allowed to die. Both houses passed a concurrent resolution last Friday to adjourn sine die today, and as a two-thirds vote is necessary to bring the suffrage measure from committee, it was generally agreed that unless the anti-suffrage members are willing, it will not come before the house again.

After being defeated by the lower house, the resolution was passed by the senate on May 5, but fearing a second defeat, suffrage advocates succeeded in preventing it being assigned to the house until last Friday. Meanwhile every effort was made to bring about a change of sentiment in the lower house. Anti-suffragists declared, however, that instead of increasing their strength, the suffragists have lost one or two votes since the resolution was defeated by the house early in the session.

Weather

OHIO—Thunder storms this afternoon and tonight. Cooler tonight. Thursday fair and cooler.

OPENING STOCKS

NEW YORK, June 2.—Nominal changes were registered by the more important shares at the apathetic opening of today's stock market, but speculation issues were under further pressure. Moderate selling was reported for western interests, credit conditions in that section pointing to increased stringency. Issues attracting a point each were made by Inspiration Copper, Goodrich Rubber, Geo. Cohn and several of the food issues. Ralls and Standard Industrials were comparatively steady.

Lord Derby's Archibald ran second and L. Neumann's Ophelia, third. Nineteen horses ran.

CHARGING IT TO THE PAPERS

A POOR excuse is better than none and with that idea the campaign managers, who have been forced to reveal the enormous sums they have handled in the interest of their chiefs, are laying mighty stress on the expense of publicity.

Let us see as to that. The fund raised by the Wood people was almost twice as much as that raised for any other candidate. The witnesses prefer to deal in general terms, but analyzing the Wood figures, we find that in an aggregate of a total, roughly placed at \$1,200,000, we find slightly in excess of \$200,000, or one dollar out of every six went for newspaper advertising.

Where did the other five-sixths go? To such query the committee has not been able to get anything approaching a specific answer. It has rather indicated it means to go to the bottom and get all the details of expenditures. It is to be hoped it is earnest in its purpose and will be successful.

It ought to expose both who gave the money and who got it, that is, how it was specifically spent. Of course, the public will believe the individuals who contributed so lavishly did not do so out of a laudable motive, but the committee intimates it is going to be a most difficult matter to pass a law that will punish the givers and stop the raising of vast sums hereafter, so the only promising remedy is, the execution of the public and its reputation of the candidate that is sought to be perpetuated upon them by the power of money.

An incident of the investigation is the kick-back it had upon one H. Johnson. This candidate went up and down the land, roaring in a mighty voice against the use of money to deceive and dupe the people by the use of hundreds of thousands of dollars and so far it appears his campaign fund was the third largest of all and ran on the far side of two hundred thousand dollars; this being only what his national organization has been proven to have handled so far, and not taking into account what may have been gathered in and put where it was hoped it would do most good by his state and local supporters. Johnson sought to get advantage of a noise, if, in all probability, never occurring to him that his enemies would take advantage of a condition he himself was creating to hit him one on the jaw. That's where he made a mistake, as anyone who talks too loud and long always does.

ODDS AGAINST ALL OF THEM

W All street is playing it safe on all the presidential aspirants on both sides. In the betting against each one it lays odds.

As to probabilities Johnson ranks as favorite in the Republican convention and Edwards of the Democratic, the ruling figures on the fields being: Johnson 8 to 5, Wood 2 to 1, Lowden and Hughes 5 to 1, Hoover 6 to 1, Harding and Butler 20 to 1, Edwards 1 to 5, Cox 2 to 1, McAdoo 3 to 1, Clark 4 to 1.

The rather surprising thing about this is as a rule short odds, totally out of proportion with the chances. Take Johnson, for instance. The pool makes him favorite at 8 to 5, but there is not a chance of one in a hundred of him winning. It is even more glaring with Edwards as 7 to 5 favorite, and really overtopping them all in so far as the odds are concerned. He hasn't a chance. No other aspirant is actually as remote as he. He isn't a possibility, he is an impossibility. That isn't in any sense a reflection upon the man himself. Circumstances have forced him into a position that will run the cold chills down the back of the convention at the mere mention of his name. The Democratic party, just like the Republican, is going to keep away just as far as it can from tangling itself with the nomination of a candidate, who fate has become inextricably interwoven with that of the so-called liquor interests.

One single fact may determine a matter about which there is much discussion and contention. So Secretary Daniels disposes of all criticisms of the navy when he stresses the truth, that the main mission of the department was to get the soldiers over to France quickly and safely, and this it did. Nobody can deny that. No other such herculean or successful feat was ever performed upon the seas. Talk and wrangle from now till doomsday, it shuns out clear and incontrovertible was that that feat which won the war. Nothing else is of consequence beside that.

They tell us the lot of a telephone girl is nerve racking, that is on the part of the girl, effect on patron discreetly omitted, but we note that Mrs. Elizabeth Andrews, England's oldest girl resigned at the age of eighty, because her eyesight had grown so bad. She saw 21 years' service on the switchboard.

Officially the war is still on, then why expect other than war prices?

Years and years ago we went out with a friend to a country rally to make a speech. After we had got through, he took the stump and harangued the multitude. A woman in the audience, who didn't like our politics was heard to murmur: "Listen at him talk, will you? He hasn't got any sense, why he is a bigger fool than that other fellow." Shortly after that one path diverged and the first we have heard of him since was through a calendar received this week, which shows that "bigger fool" is now judge on the Indiana court of appeals. Which just goes to show you never can tell.

The man who built the first celluloid collar is dead, but his work will live after him, regrettable to say.

In Mexico a cafeteria is a place where only coffee is sold. In New York it is a place where one thing that isn't coffee is sold under a hundred different names.

Things never co-ordinate square. Here just as we had by heroic effort raked and scraped together enough to buy a \$50 bond the price suddenly jumped up and again we are far away from adding another to a life's savings. But it is all right. It stopped a lot of loose talk about how something worse was coming.

All the same that name Huerta doesn't sound good to us coupled with the presidency of Mexico. The United States heretofore had some business with a fellow of the same name in the same place.

Herb Hoover says prices will come down, sooner or later. That may be called playing it safe.

LINDSEY'S COOKING EXPERIENCES ARE OVER

As I lay in bed dreaming another morning, I should put my neck in the family breakfast today, which I had. There was nothing to do but sit out in my graceful form. "Down in a minute, Mandy dear." I left my word too.

It will strike you as strange that after my fatal experience as a cook, yesterday, I should put my neck in the same again, of my own volition. But I shall continue to do so, until we see where there is nothing to do. She can't cure the services of a new cook. It's the seriously on the lookout for work not fair to let little mother do it all, for she could never ask the silly and even if the family does suffer from lack of food, it is her object. Dear me it is only the family! That fact means a whole lot.

I managed to get up quite a fair breakfast, and without much groaning either, which is the acid test for me. The family enjoyed it and were loud in their praise of me, which helps much. I am ferreting looking, however, that mother gets a cook—quickly. I have other work to do, which needs all of my attention, and getting lunch and breakfast every day means tremendous much, I can tell you.

BILLY WILKES

BY FRANCES TREGO MONTGOMERY

On the long journey of Mr. Wilkes' ranch Billy, Jr., grew tired. "How much further is it?" he asked. "I have walking behind a wagon, taking all the dust from the horses' heads. And this dust seems to go in my eyes, in my nose, in my mouth. I don't know it does, that is for sure, but it is so much alkali in the ground about here. Don't you remember as telling you about dead lakes and the bones of animals? You would see bleaching on its margin and you tried to walk across the desert."

Well, this is not a desert, but we have to pass a small lake of alkali water, and, small as it is you can see the bones of animals lying beside it. There is very little water out here, and large rivers, and only a few springs or little mountain streams.

"Quick! look out there toward the foothills; do you see that grey deer running with a long leaping trot?"

"Yes, what of it?" said Billy, Jr.

"The Reason"

"I asked him to come down and talk things over. You see, he is such a high-spirited man."

"Then he won't come down."

"Secret Sympathy"

"Browne, you can say what you will of Browns, but he is one of the most sympathetic fellows I know."

"Browne, I guess that's right. He even feels sorry for the people to whom he owes money."

"Not to be Beaten"

"An Alabama dandy, who prided himself on being able to play any time on the hands after he had heard it once, pitched himself on the side of a hill one Sunday morning and began to pick the strings in a workmanlike manner. It changed that the minister, came along. Going up to Moses, he demanded, harshly, 'Moses, do you know the Ten Commandments?'"

"Moses scratched his chin for a moment, and then in an equally harsh voice, said:

"'Parson, you don't think you kin beat me, do you? Just you wait the first three or four bars, and I'll have a try at it.'"

"Harper's Magazine."

"Light or Dark"

"Visitors to your husband a light sleeper?"

"Mandy—Yes-sure. But man kin sleep as easy in de daytime as in de night."

"A Slaver"

"Two fish-business men were chatting together when an elderly man passed by."

"That's Brown; he works for me."

"He's an honest-looking chap," remarked the other. "Has he any staying power?"

"He has that," replied the first. "He began at the bottom of the ladder in twenty-six, and he's stayed there ever since."

New-York - Day - By - Day

BY O. O. MONTAGUE

NEW YORK, June 2.—
I never were anything now.
In my young life.
That I did not.
Have a sudden appetite.
For a grape fruit.
And spoil everything.
And there seems to be.
No way in the world.
To keep a grape fruit.
From back-biting.
I was all dressed up.
The other morning.
And sailed forth.
Gaily for breakfast.
And ordered grape fruit.
And when it came.
I asked the waiter.
If he had an umbrella.
Or a rubber overcoat.
But he had been up late.
The night before.
And was in no mood.
For my request.
So I tackled it gently.
And was making headway.
When it let go both barrels.
And got me in the shirt front.
And I turned around.
To tackle the other side.

THE LINGI
A group of workers were lunching in a sheltered nook on a wharf. One of them went across the street for a plug of tobacco, and during his absence another substituted for his tin of pipe coffee and milk his own tin of milkless black coffee.

When the first worker returned to his lunch he could hardly believe his eyes.

"Well," said he, "I have heard of clever thieves, but to steal the milk out of a fellow's coffee! Is that the limit?"—Philadelphia Bulletin.

SUCH IS LIFE
First Neighbor—Well, the new-world homogeneity is something.

Second Neighbor—How do you know?

First Neighbor—I saw him kiss her this morning with his hat on his head, his hand on the door knob and his eye on the clock.—Pitt Courier.

THE REASON WHY
My sister, aged five, had come to the table with very dirty hands, and mother said to her: "Mabel, go and wash your hands immediately. Did you ever see me come to the table with hands like that?"

"No, mother, of course not," answered Mabel, "but I didn't know you when you were five years old."—Illustrated News.

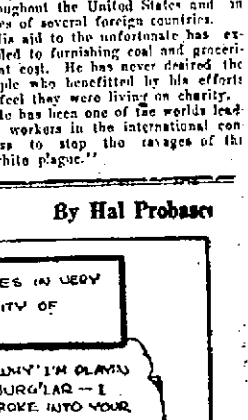

DUTIES OF THE QUEEN BEE.
It may be interesting to some people to learn that all the work in a beehive is done by female bees. The drones, or males, live on the labors of their more industrious female companions. Moreover, there is no such thing as a king bee. The ruler of the hive is the queen, but she is a ruler in name only, being guarded and protected by the bees simply because the colony would become extinct if she did not lay eggs at a prodigious rate. It is not unusual for a good queen to produce her own weight in eggs in a single day, and she keeps this up for weeks at a time.

Frightful Dream.
Tillie Clinger says the reason she is quitting her present boarding house is because she dreamed last night she was married to a cannibal, and when she waked up a horrid little bug was eating on her.—Dallas News.

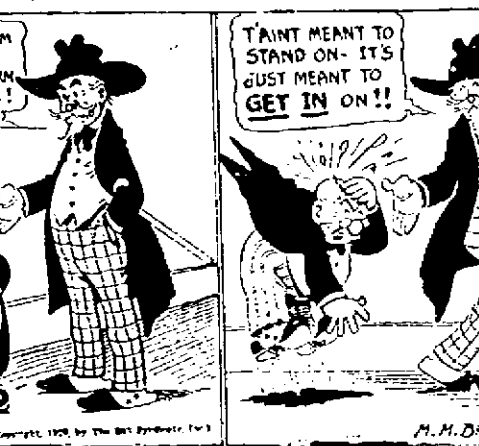

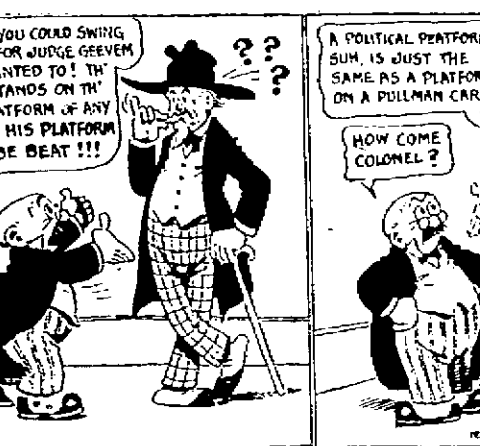

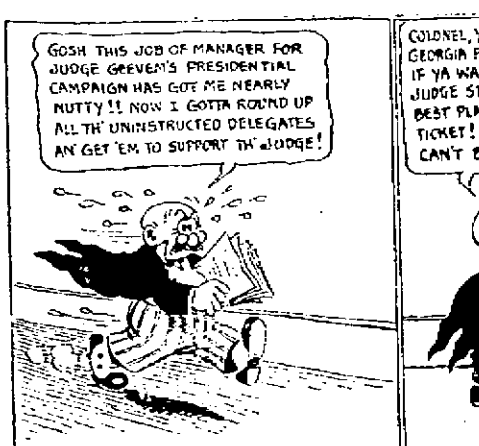

WHO'S WHO
In The Days News

NATHAN STRAUSS
Nathan Strauss, internationally famed for his philanthropies and humanitarian work, is soon to start for the Holy Land in the interest of Judaism. While enroute he will attend the great Jewish conference at Coziah, on July 1, as a delegate from the United States. He has announced that he proposes to do in Palestine, soon to bid a Jewish state what the Rockefeller Foundation is doing in other lands. He has already contributed more than \$200,000 toward the establishment of a medical department in the Holy Land and has made it known that he proposes to increase the sum from time to time. The career of Strauss is an object lesson to every struggling young man in America. Born in Rheish, Bavaria, in 1848, he came to this country six years later with his family and settled in Baltimore, Md., where he obtained a medical education. Subsequently he went to New York, took a business training course and joined his father in the business of importing pottery and glass. After his marriage in 1875 he became a partner in the department store of R. H. Macy and Co., which under his present management became one of the largest concerns of its kind in the world. Always an ardent Democrat, he took considerable interest in New York politics, but when he was tendered the nomination for mayor in 1924 he declined the honor. Charity has been the background of his life. After many years of struggling he obtained permission to establish a sterilization plant on Randall's island for the benefit of foundlings. His action lowered the infant death rate of New York 50 per cent. Later he established a great chain of pure milk distributing stations throughout the United States and in cities of several foreign countries. His aid to the unfortunate has extended to furnishing coal and groceries at cost. He has never decried the people who benefited by his efforts to feel they were living on charity. He has been one of the world's leading workers in the international congress to stop the ravages of the "white plague."
